

STUDY TIPS

Learn more effectively!

COMFY UP YOUR PLACE

Cozy up your study spot with decor that makes you feel your best.

CREATE A STUDY GROUP

A group of like-minded students gathering for the purpose of study can make the difference between a so-so study moment and an ah-ha one.

KEEP STUDY HOURS SHORT

To get the most out of studying, you want to be fresh and alert. One of the best ways to do this is to study for short time intervals, like under one hour and then take a break.

LEARN IT AND TEACH IT

One of the most effective ways to remember something and put it into muscle memory is to apply the information you learned. A great way to apply it is by teaching it to someone else.

KEEP LEARNING

Your brain is a muscle that needs exercise. Learning new things is a great workout for your mind.
